SALUTATION

The Dicky Beach Board Life Saving Operations Committee has reviewed your application for roving status. Based on the information you have provided and the contribution you have made to protect the visitors to our beach your application has been endorsed.

The essence of lifesaving is to protect the visitors to our beach. As such, we encourage you to continue to make yourself available to support this goal. The areas where we see you fulfilling this vital role is during the peak periods of our patrolling season and supporting the regular patrolling members in their time of need.

The terms of roving status still require you to complete the minimum patrol hours at Dicky Beach Surf Life Saving Club of 45 hours per season. This requires you to patrol at least once per month during the season. You should provide support to members who approach you when they are unable to attend patrols due to work and other commitments and by providing the necessary support to the club during public holiday periods as gazetted in the patrol service agreement.

You are expected to maintain your competence and proficiency in the awards you choose to hold. Should you wish to compete in any lifesaving competition it is your responsibility to maintain the necessary hours required under the appropriate policies at the time.

As a courtesy to the club, you are asked to commit to notifying your availability to attend patrols to the Club Captain and the Patrol Captain one week in advance to enable appropriate planning and scheduling of resources. You are expected to complete a full patrol on the nominated patrol.

We thank you for your continued support of the Dicky Beach Surf Life Saving Club in reaching our goals of zero preventable deaths on our beach.

Kind regards
