SALUTATION

The Dicky Beach Board of Lifesaving has considered your application for Active Reserve status. We appreciate your valuable contribution to the lifesaving movement over the years and have endorsed your application as Active Reserve.

We thank you for your dedication to the Dicky Beach Surf Life Saving Club it has been truly appreciated and it is through this dedication we have maintained our great reputation.

The essence of lifesaving is to protect the visitors to our beach. As such, we encourage you to continue to make yourself available to support this goal. The areas where we see you fulfilling this vital role is during the peak periods of our patrolling season and supporting the regular patrolling members in their time of need.

This involves providing support to members who approach you who are unable to attend their patrols due to work or other commitments and providing the necessary support to the club during Public Holiday periods as gazetted in the patrol service agreement.

You are expected to maintain your competence and proficiency in the awards you choose to hold.

As a courtesy to the club, you are asked to commit to notifying your availability to attend Public Holiday patrols to the Club Captain to enable appropriate planning and scheduling of resources.

We again thank you for your continued support.

Kind regards

John Scott
President
